

NOTICE

**Lakewood Township Municipal Utilities Authority
Granular Activated Carbon Systems Installation at Well No.'s 1, 2 and 3
Township of Lakewood, Ocean County, New Jersey
Project No. 1414002.005**

In accordance with procedures established to evaluate projects which have applied for assistance under the New Jersey Environmental Infrastructure Program (NJEIFP), a Level 1 environmental review has been conducted on the proposed project which will involve the construction of a pre-engineered granular activated carbon system (GAC) at Well No.'s 1, 2 and 3 along with its necessary operational appurtenances. These appurtenances for the GAC include the new piping, concrete foundations, modifications to sanitary sewer laterals for backwash, electrical and SCADA software integration.

The New Jersey Department of Environmental Protection has made a preliminary decision to assist this project under financing program. The Lakewood Township Municipal Utilities Authority will finance 100 percent of the project costs.

Proposed Project Cost: \$3,359,000

Proposed Loan: \$3,359,000

Upon written request, the planning documents and the Department's Environmental Decision Document will be available for public review at:
